

### **REMARKS**

Claims 1-19 were pending in the present application. Claims 1-5, 7-12, and 17-19 have been amended. The amendment to the claims is fully supported by the specification, as filed. No new subject matter has been introduced. After entry of the amendment, claims 1-19 remain pending in this application.

#### **Objections to the Claims**

The Examiner indicated that the numbering of the claims in the previously presented claim set was non-consecutive. The listing of claims presented herewith is numbered consecutively. Claims 4 and 5 were objected to for lack of clarity as to their dependencies. Claims 4 and 5 have been amended to depend from claims 2 and 3, respectively. Applicants respectfully request that these objections to the claims be withdrawn.

#### **Elections/Restrictions**

The Examiner has required restriction between the following groups:

Group I: claims 1-14, 17 and 19, drawn to a device for handling liquid sample, and a method of using the same.

Group II: claims 15 and 16, drawn to a method of performing a chemical or biochemical assay involving a reaction between an analyte in a sample and one more reagents.

Group III: claim 18, drawn to a method of pre-treating a liquid sample, prior to performing a chemical or biochemical assay.

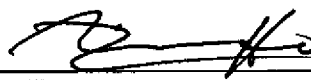

Applicants hereby provisionally elect Group I, claims 1-14, 17, and 19 for continued examination, with traverse. Applicants respectfully assert that a search of all the groups would not present an undue burden on the Office. Reconsideration is respectfully requested.
